

QMS Precast Competitor One-Pager

Health & Safety Event 2026

This shortlist focuses on the exhibitors most similar to QMS Precast's current product direction: health and safety audits, inspections, scheduling, corrective actions, mobile completion, and centralised reporting.

Closest Competitors

EcoOnline

- Strong overlap on audits, inspections, recurring checks, corrective actions, and centralised safety data.
- More established and enterprise-scale, but broader and heavier to position.
- QMS Precast angle: simpler setup, clearer Google-folder workflow, easier dedicated-tablet story.

Evotix

- Very close overlap on audit templates, mobile inspections, evidence capture, scheduling, and actions.
- Strong compliance and operations message with a mature EHS platform.
- QMS Precast angle: easier for site teams to understand and faster to get live.

HSI Donesafe

- Broad EHS platform with audit and inspection management, compliance, risk, and actions.
- Powerful but positioned as a larger all-in-one platform.
- QMS Precast angle: more focused, more operational, less platform complexity.

Notify Technology

- Strong match on audits, inspections, checklists, recurring schedules, and mobile completion.
- Close in day-to-day workflow language.
- QMS Precast angle: stronger company-specific onboarding and clearer one-company-per-tablet setup.

Vatix

- Similar on audits and inspections, mobile use, corrective actions, and health and safety workflows.
- Broad H&S platform positioning.
- QMS Precast angle: more structured around folder setup, audit rollout, and company-specific use.

Benchmark Gensuite

- Strong inspection lifecycle and follow-up action story.
- More enterprise-heavy than QMS Precast.
- QMS Precast angle: more accessible, easier to adopt, simpler to explain on a stand.

Second-Tier Similar Exhibitors

- Ideagen
- VinciWorks
- Bizzmine
- Q-Hub Compliance Software

These are relevant but feel broader, more enterprise-led, or less clearly field-audit-first than the strongest competitors above.

Show Positioning For QMS Precast

- Easier to deploy than large enterprise EHS suites.
- Better story for dedicated tablets and live site use.
- Clear company onboarding and company-folder structure.
- Practical audit rollout rather than broad platform complexity.
- Simpler operational workflow for teams who need to get moving quickly.

Best Stands To Watch

- 1 EcoOnline
- 2 Evotix
- 3 HSI Donesafe
- 4 Notify Technology
- 5 Vatrix
- 6 Benchmark Gensuite
